Acknowledgement

First of all, I would like to thank Aptech India for granting us the opportuinity to work on this interesting eProject. We've had a great experience.

Secondly, We would like to express my special thanks to our mentor, Ms. Nguyen Ha Vy for the time and effort that she has provided throughout the project. Her helpful advice and suggestions were beneficial to us during the completion of the project.

Last but not least, we hope to have more opportunities to widen our knowledge in the web-developing world and continue life-long learning while improving ourselves in the future.

Problem Statement

A-1 uniforms was founded in 2016 and since then they have been one of the leading Uniform Manufacturers in the country. they supply many schools in country and they give them the best uniforms. They supply affordable school uniforms for girls and boys. When clients come, they cater to client's vision. As a team of professionals they understand what clients want and deliver the best results.

At A-1 uniform designs are innovative and there are always fresh and new ideas for each and every client. The textiles are of excellent quality and they make each uniform according to the size requirements given. The fit is ingenious and they provide with the best. A-1 uniform is a part of a continuous strategic process of creative inputs from experts in the field. They consider each client differently and ensure the satisfaction with the end results. Each client is given the uttermostimportance.

The entire team works together to achieve the same goal.

Requirements

Business Requirements

Looking at the demands and increasing power of web, the management of A-1 Uniform are looking for hosting a website of their products which maké easier for customers to reach to them.

Our mission is developing the site "A1uniforms.com"

Functional Requirements

The Web site is to be created based on the following requirements.

1. The home page must describe the keywords or highlight of the shop along with all navigation link defined.

2. Products should be categorized by Shirts, Skirts, Frocks, P.T. T-shirts, P.T. shorts, P.T. track pants, Belts, Ties, Socks and Logos.

3. The "Contact Us" page should have the Address of the Company and the mail address which when clicked will invoke the local mail client from where they can send an email. Address of the Company should be displayed using GeoLocation API (e.g. GoogleMaps).

4. Contact Us page should also include the address and contact details of various outlets of A-1 uniforms in the city.

5. About us page

6. Feedback

7. Navigation must be smooth.

8. Color combination must be uniform throughout the project.

High Level Design

Site Map

The figure below shows the Sitemap identified for A1uniform.com
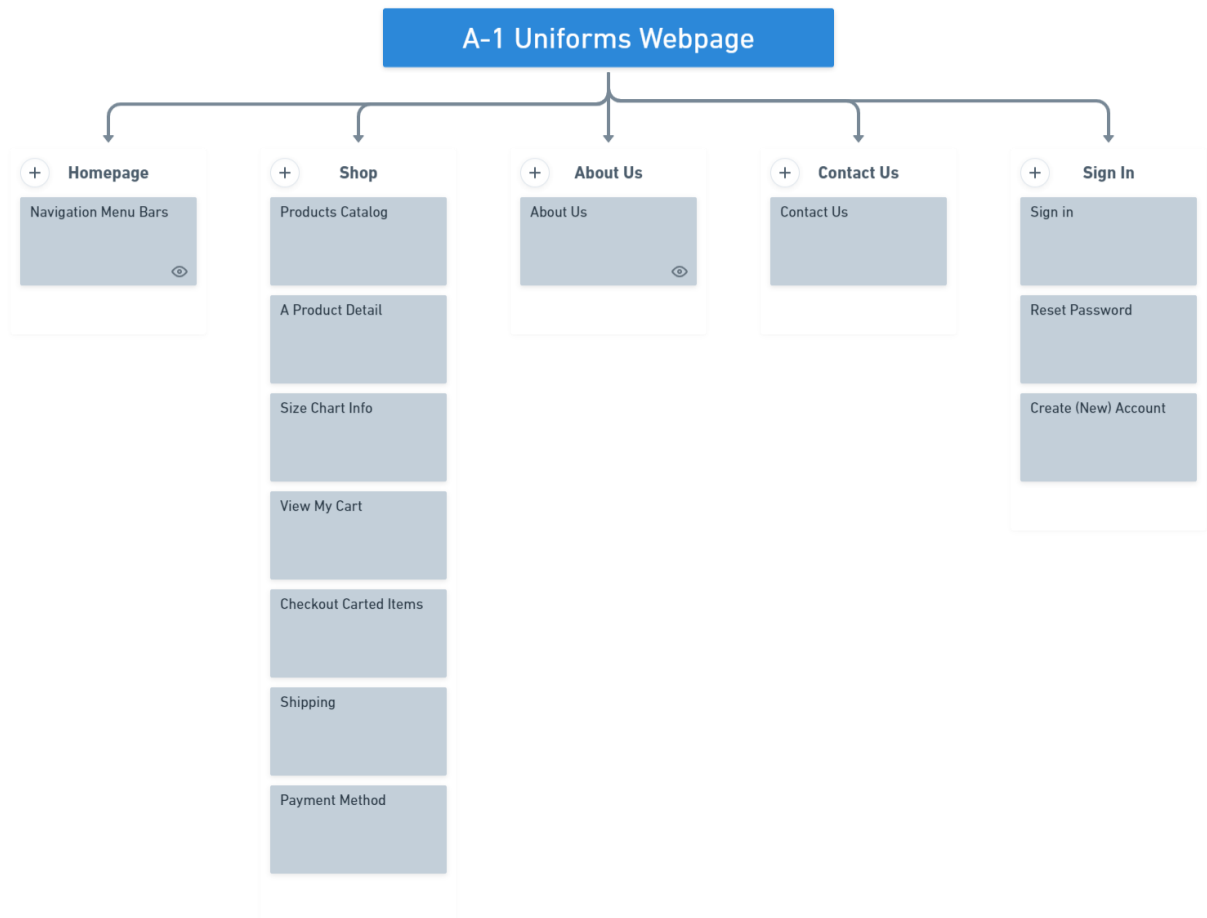

Data Flow Diagram

The figure below shows the Data Flow Diagram identified for A1uniform.com
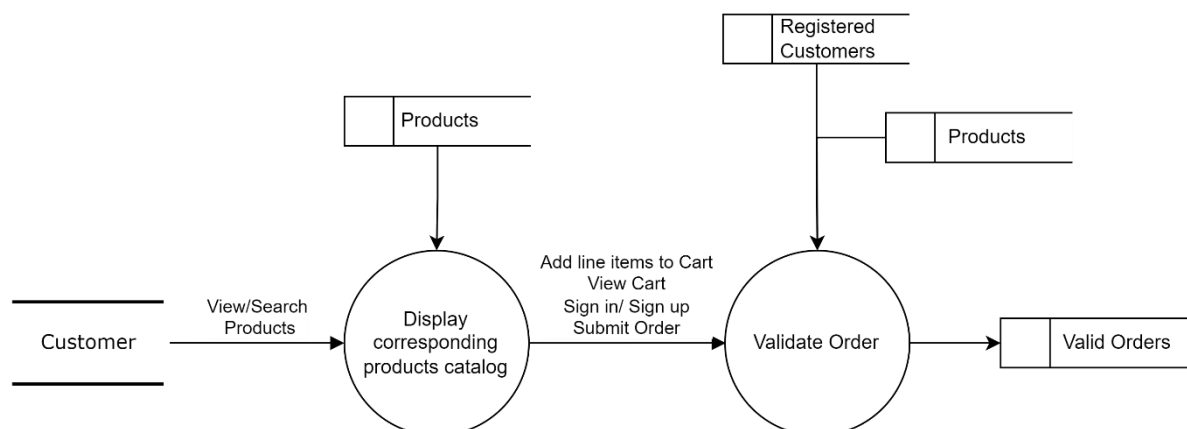

Non-Functional Specification

The only only non-functionn requirement that we have implemented is Making **all webpages responsively-displayed**.

Functional Specifications

1. Common Use Cases

Common Use Cases
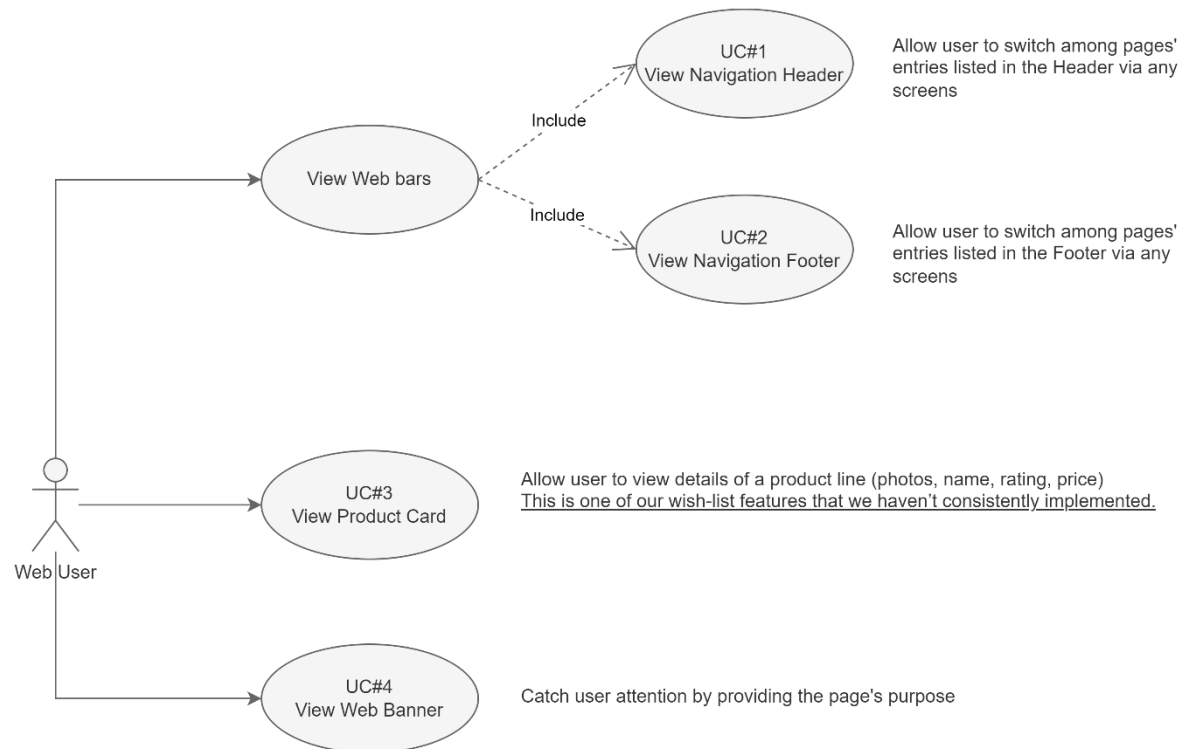

Common Use Cases Description:
